

CONTENTS

1. Introduction to human body 1-64

- 1.1 Cellular and Tissue level organization 2
- 1.2 Scope of Anatomy, Physiology and Pathophysiology.....
- 1.3 Levels of structural organization and body systems.
- 1.4 Major Basic Life Processes, Homeostasis, Basic Anatomical Terminologies.
- 1.5 Structure and Functions of Cell.
- 1.6 Transport across cell membrane.
- 1.7 Cell Division.
- 1.8 Cell Junction
- 1.9 General Principles of Cell Communication
- 1.10 Classification of Tissues
- 1.11 Study Questions

2. Basic principles of cell injury and adaptation 65-93

- 2.1 Components and types of feedback systems.....
- 2.2 Causes of cellular injury.
- 2.3 Pathogenesis (cell membrane damage, mitochondrial damage, ribosome damage and nuclear damage)
- 2.4 Morphology of cell injury — adaptive changes (atrophy, hypertrophy, hyperplasia, metaplasia, dysplasia), cell swelling, intra cellular accumulation and cell death.
- 2.5 Definitions of commonly used relevant medical terminologies.

3. Integumentary system and wound healing 95-112

- 3.1 Structure and Functions of Skin
- 3.2 Skin Disorders: Psoriasis
- 3.3 Skin Disorders: Dermatitis
- 3.4 Pathophysiology of Leprosy
- 3.5 Basic Principles of Wound Healing
- 3.6 Study Questions

4. Skeletal and Muscular System 113-131

- 4.1 Introduction to Skeletal System
- 4.2 Divisions of Skeletal System
- 4.3 Types of Bones
- 4.4 Skeletal Muscle

- 4.5 Physiology of Muscle Contraction
- 4.6 Neuromuscular Junction
- 4.7 Study Questions

5. Joints of Skeleton and its Disorder 133-154

- 5.1 Structural and functional classification of joints
- 5.2 Pathophysiology of Rheumatoid Arthritis
- 5.3 Pathophysiology of Osteoporosis
- 5.4 Pathophysiology of Gout
- 5.5 Study Questions

6. Blood 155-188

- 6.1 Introduction
- 6.2 Functions of Blood
- 6.3 Composition of Blood
- 6.4 Blood Volume
- 6.5 Hemopoiesis
- 6.6 Red Blood Cell
- 6.7 Erythropoiesis
- 6.8 Haemoglobin
- 6.9 Blood Group
- 6.10 White Blood Cell
- 6.11 Platelets
- 6.12 Mechanism of Coagulation
- 6.13 Study Question

7. Lymphatic System 189-204

- 7.1 Body Fluids
- 7.2 Tissue Fluid
- 7.3 Introduction of Lymphatic System
- 7.4 Lymph
- 7.5 Lymph Node
- 7.6 Spleen
- 7.7 Disorders of Lymphatic System and Lymph
- 7.8 Study Questions

8. Basic mechanism of inflammation and repair 205-228

- 8.1 Introduction
- 8.2 Classification of inflammation
- 8.3 Acute inflammation
- 8.4 Chronic inflammation
- 8.5 Tissue Repair
- 8.6 Study Questions

9. Haematological Disease 229-247

- 9.1 Iron Deficiency
- 9.2 Megaloblastic Anaemia
- 9.3 Sickle Cell Anaemia
- 9.4 Thalassemia
- 9.5 Hereditary and Acquired Anaemia
- 9.6 Haemophilia
- 9.7 Study Questions

10. Peripheral nervous system 249-263

- 10.1 Introduction
- 10.2 Classification of peripheral nervous system
- 10.3 Structure and functions of sympathetic nervous system
- 10.4 Structure and functions of parasympathetic nervous system
- 10.5 Origin and functions of spinal nerves
- 10.6 Origin and functions of cranial nerves
- 10.7 Study Questions

11. Special senses 265-283

- 11.1 Introduction
- 11.2 Structure and functions of eye
- 11.3 Structure and functions ear
- 11.4 Structure and functions nose and tongue.
- 11.5 Pathophysiology
- 11.6 Special sense disorders
- 11.7 Study Questions

12. Cardiovascular system 285-321

- 12.1 Introduction to Cardiovascular System
- 12.2 Anatomy of Heart
- 12.3 Function of Heart
- 12.4 Blood Circulation
- 12.5 Structure and functions of artery, veins and capillaries
- 12.6 Conduction system of Heart
- 12.7 Basics of Heartbeat and its regulation by autonomic nervous system
- 12.8 Cardiac Output
- 12.9 Cardiac Cycle
- 12.10 Blood Pressure (BP)
- 12.11 Regulation of Blood Pressure
- 12.12 Pulse
- 12.13 Electrocardiogram (ECG)
- 12.14 Study Questions

13. Disorders of Cardiovascular System 323-344

- 13.1 Basics of Cardiovascular System Disorders
- 13.2 Pathophysiology of Hypertension
- 13.3 Pathophysiology of Cardiac Arrhythmias
- 13.4 Pathophysiology of Congestive Heart Failure
- 13.5 Basics of Ischemic Heart Disease
- 13.6 Pathophysiology of Angina
- 13.7 Pathophysiology of Myocardial Infraction
- 13.8 Pathophysiology of Atherosclerosis
- 13.9 Pathophysiology of Coronary Artery Disease
- 13.10 Study Questions

Index 345-354
