

CONTENTS

SECTION-I : COMMUNITY HEALTH NURSING 1-296

I. Introduction to Community Health 3-46

1. Introduction to Community
2. Health Concepts
3. Community Health
4. Primary Health Care
5. Promotion and Maintenance of Health

II. Community Health Nursing 47-58

6. Community Health Nursing
7. Community Health Nursing Process

III. Health Assessment 59-79

8. Health Assessment
9. Health Assessment of different category people

IV. Principles of Epidemiology and Epidemiological Methods 80-232

10. Introduction to epidemiology
11. Basic Measurements in epidemiology
12. Disease cycle, Natural History and Spectrum of Disease
13. Levels of prevention

14. Dynamics of disease transmission
15. Vaccines and immunization
16. Control of Infectious Disease
17. Disinfection

V. Family Health Nursing Care 233-262

18. Family as a unit of health service
19. Family Health Care Plan and Nursing Process
20. Maternal, Child Care and Family Welfare Services

VI. Family Health Care Settings 263-270

21. Home visiting
22. Clinics and functions of the health personnel

VII. Referral System 271-279

23. Referral System

VIII. Records and Reports 280-285

24. Records and Reports

IX. Minor Ailments 286-296

25. Minor Ailments

SECTION-II : ENVIRONMENTAL HYGIENE 297-380

I. Introduction to Environment 299-306

1. Introduction to Environment

II. Environmental Factors Contributing to Health 307-371

2. Water
3. Air
4. Wastes
5. Housing
6. Ventilation, Lighting and Noise
7. Arthropods and Rodents

III. Community Organizations to Promote Environmental health 372-380

8. Community Organizations to Promote Environmental health
9. Acts Regulating Environmental health

SECTION-III : HEALTH EDUCATION AND COMMUNICATION SKILLS 381-430

I. Communication Skills 383-390

10. Communication Skills

II. Counselling 391-398

11. Counselling

III. Health Education 399-414

12. Concept of Health Education

IV. Methods and Media for Health Education 415-430

13. Audio Visual Aids
14. Methods of Health Education

SECTION-IV : NUTRITION 431-597

I. Introduction 433-441

- a) Meaning of food, nutrition, nutrients etc.
- b) Food Habits and customs
- c) Factors affecting nutrition
- d) Changing concepts in food and nutrition.
- e) Relation of Nutrition to Health

II. Classification of food 442-484

- a) Classification by origin:
 - Food of animal origin
 - Food of plant origin

- b) Classification by chemical composition and sources

- Carbohydrates
- Proteins
- Fats
- Minerals
- Vitamins
- Water

- c) Classification by predominant functions

- Body building food
- Energy giving food
- Protective food

d) Classification by nutritive value

- Cereals and millets
- Pulses and legumes
- Vegetables
- Nuts and oil seeds
- Fruits
- Animal food
- Fats and oils
- Sugar and jiggery
- Condiments and spices
- Miscellaneous food.

III. Normal Dietary Requirements 485-507

- a) Energy: Calorie, Measurement, Body Mass Index, Basal Metabolic Rate – determination and factors affecting
- b) Balanced Diet – nutritive value of foods, calculation for different categories of people, normal food requirement calculation. Menu plan. Combination of food affecting and enhancing the nutritive value of the diet.
- c) Budgeting for food, low cost meals, food substitutes.
- d) Diseases and disorders caused by the imbalance of nutrients.
- e) Food allergy –causes, types, diet modifications in gluten, lactose and protein intolerance etc.
- f) Food intolerance - inborn errors of metabolism

IV. Food Preparation, Preservation & Storage 508-530

- a) Principles of cooking, methods of cooking and the effect of cooking on food and various nutrients. Safe food handling, health of food handlers.
- b) Methods of food preservation– household and commercial, precautions.
- c) Food storage – cooked and raw, household and commercial, ill effects of poorly stored food.
- d) Food adulteration and acts related to it.

V. Therapeutic Diet 531-557

- a) Diet modification in relation to medical and surgical condition of the individual such as Protein Energy Malnutrition (PEM), Diabetes, Cardio Vascular disease, Hepatitis, Renal, Gouts, Irritable Bowel Syndrome (IBS), Obesity, cholecystectomy, partial gastrectomy, gastrostomy, bariatric surgery and colostomy etc.
- b) Special diet – low sodium diet, fat free diet, diabetic diet, bland diet, high protein diet, low protein diet, low calorie diet, geriatric diet, iron rich diet, liquid diet, semi-solid diet, soft diet and high fiber dietetic
- c) Factors affecting diet acceptance, feeding the helpless patient.
- d) Health education on nutrition needs and methods in diet modification.

VI. Community Nutrition 558-571

- a) Nutritional problems and programs in India
- b) Community food supply, food hygiene and commercially prepared and grown food available locally.
- c) National and international food agencies – Central food training research institute (CFTRI), Food and agriculture organization (FAO), National Institute of Nutrition (NIN), Food Safety and Standards Authority of India (FSSAI), CARE (Cooperative for Assistance and Relief Everywhere), National Institute of Public Cooperation and Child Development (NIPCCD) etc.

VII. Preparation of diet / practical 572-597

- a) Beverages: hot and cold, juice, shakes, soups, lassi, barley water
- b) Egg preparation: egg flip, scramble, omlet, poached egg
- c) Light diet: porridges, gruel, khichari, dahlia, kanji, boiled vegetables, salads, custards.
- d) Low cost high nutrition diets - chikki, multigrain roti
